

ABSTRACT OF THE DISCLOSURE

A method and system for protecting domain names. A permanent registration certificate for providing a permanent registration of a domain name can be issued. The permanent registration certificate provides a permanent registration of a domain name including perpetually determining, paying and verifying current and future renewal fees for the domain name at a public domain name registrar. A permanent web-site accessible via the Internet and associated with a domain name registration from an issued permanent registration certificate is perpetually hosted. The method and system help prevent a domain name owner from ever losing valuable domain name rights, reduce the burden and administrative overhead placed on domain name owners and more fully utilize existing and new rights associated with a domain name registration.
